

TUNAHAN ÖZTÜRK

Blockchain Developer

Hello, I'm Tunahan, and I have a passion for both *Front-End* and *Back-End* development. With experience in **HTML, CSS, JavaScript, React, Node.js, Python, Solidity, and SQL**, I am well-versed in various technologies. I enjoy creating visually appealing and intuitive user interfaces using HTML and CSS. JavaScript is my go-to language for client-side interactivity, and I have hands-on experience with frameworks like React to build dynamic web applications. I am a dedicated problem solver with strong analytical abilities. Collaborating effectively within teams and delivering high-quality solutions is something I strive for.
